Chapter I: Introduction

1.1 EDDD Profile

Daman and Diu is a union territory in India. Daman District comprises of an area of 72 sq. km whereas Diu District comprises of an area of 40 sq. km. The total population of Daman & Diu as per 2011 census was 242,911 with population density being 2400 persons per sq. km.

The Electricity Department of Daman & Diu (EDDD) is responsible for supply of uninterrupted & quality power to all categories of consumers in Daman & Diu at the most economical rates. The (EDDD) is engaged in the procurement, transmission and distribution of electricity to the various consumer categories in the Union Territory of Daman and Diu. The EDDD mainly relies on the Central Sector Generating Stations (CSGS) in Western Region to meet its energy demand. EDDD also has some allocation from Eastern Region Central Generating Stations.

The present transmission and distribution system of EDDD consists of 26 circuit kms of 220 kV Double Circuit (D/C) lines, 85.30 kms of 66kV lines, 420 circuit kms of 11kV O/H as well as U/G lines, 773.71 circuit kms of LT OH & U/G lines along with 875 transformers. Presently, there are 107 no. 11 kV feeders and 5 no. 66 kV feeders in the network of Daman & Diu.

The key duties being discharged by Daman & Diu Electricity Department are:

- Laying and operating of such electric line, sub-station and electrical plant that is primarily maintained for the purpose of distributing electricity in the area of supply of 'Daman & Diu Electricity Department', notwithstanding that such line, sub-station or electrical plant are high pressure cables or overhead lines or associated with such high pressure cables or overhead lines; or used incidentally for the purpose of transmitting electricity for others, in accordance with Electricity Act. 2003 or the Rules framed there under.
- Operating and maintaining sub-stations and dedicated transmission lines connected there with as per the provisions of the Act and the Rules framed there under.

- Arranging, in-coordination with the Generating Company(ies) operating in or outside the State, for the supply of electricity required within the State and for the distribution of the same in the most economical and efficient manner;
- Supplying electricity, as soon as practicable to any person requiring such supply, within its competency to do so under the said Act;
- Preparing and carrying out schemes for distribution and generally for promoting the use of electricity within the State.

The present power allocation of Daman & Diu is approximately 378 MW from various generating stations including 70 MW from NTPC-SAIL plant located at Bhilai and 38 MW from Ratnagiri Gas and Power Private Limited (RGPPL). At present, Daman gets power at 220/66 KV Magarwada substation from two sources. First source is 220 KV (D/C) Ambethi-Magarwada line and second source is from 220 KV (D/C) Magarwada (PGCIL) Magarawada, Daman and Diu gets power from 66 kV Una substation through 66 kV double circuit line emanating from 220 /66 kV Kansari substation of GETCO.

The current demand is primarily dependent on the HT and LT Industrial consumers contributing approx. 90% of the total sales in FY 16-17. The demand from the industrial consumers is primarily due to tax holiday benefit extended by the Govt of India in UT of Daman & Diu which has attracted a large number of industries to set up base in this area.

Considering the increase in demand from the large industries, the demand is likely to reach to 330-340 MW by FY 2018-19. In view of the huge power demand in future, EDDD had proposed a number of schemes to be implemented during the coming years for strengthening and augmentation of the transmission and distribution system in the territory. EDDD is also undertaking efforts to get higher allocation from the Central Generating Stations. The EDDD is undertaking all necessary actions to tie-up for long-term power purchase for meeting the deficit in the UT of Daman and Diu.

1.2 Multi Year Tariff Distribution Tariff Regulations, 2014

EDDD's tariff determination is now governed by "The Joint Electricity Regulatory Commission for the State of Goa and Union Territories (Multi Year Distribution Tariff) Regulations, 2014" (referred to as "MYT Regulations, 2014"). The MYT Regulations, 2014 provide a framework for calculating tariffs on a cost-plus basis initially for a period of three years and allow the licensee to recover operational expenses including depreciation, interest on working capital and debt, and return on equity amongst

others. The MYT Regulations, 2014 segregate the items impacting tariffs into controllable and uncontrollable factors. Items that are uncontrollable are passed through to the consumers. Further, the MYT Regulations, 2014 identifies the uncontrollable and controllable parameters as follows:

1.2.1 Uncontrollable Parameters include

- 1 Force Majeure events, such as acts of war, fire, natural calamities, etc.
- 2 Change in law;
- 3 Taxes and Duties;
- 4 Variation in sales; and
- 5 Variation in the cost of power generation and/or power purchase due to the circumstances, as specified in the MYT Regulations, 2014

1.2.2 Controllable Parameters include

- 1 Variations in CAPEX due to time and/or cost overruns/efficiencies;
- 2 Variations in transmission and distribution losses;
- 3 Variations in depreciation and working capital requirements;
- 4 Failure to meet the standards specified in the Joint Electricity Regulatory Commission (Standards of Performance) Regulations, 2009 except where exempted;
- 5 Variation in operation & maintenance expenses, except those attributable to directions of the Commission;
- 6 Variation in Wires Availability and Supply Availability; and
- 7 Variation on account of inflation.

1.3 Contents of this Petition

This Petition covers the truing up for FY 16-17, revised estimates for FY 17-18 and the basis, assumptions and projections of individual elements constituting the determination of ARR for the FY 18-19. The Joint Electricity Regulatory Commission for the state of Goa and union territories (JERC) had issued the first Tariff Order for Electricity Department of Daman & Diu (EDDD) on 1st November 2010 and subsequently the second, third, fourth, fifth, sixth, seventh and eighth Tariff order for FY 11-12, FY 2012-13, FY 2013-14, FY 2014-15, FY 2015-16, MYT Control Period FY 2016-17 to FY 2018-19 and FY 2017-18 for EDDD were issued on

3rd October, 2011, 25th August, 2012, 22nd March, 2013, 1st May, 201, 31st March, 2015, 6th April, 2016 and 29th May, 2017 respectively. The Commission in its Tariff Order for the FY 2017-18 has approved the ARR for the FY 2017-18 based on the actual cost for FY 15-16 and estimated expenses for FY 16-17.

Chapter 2: True Up for FY 2016-17

2.1 Principles for True Up for FY 2016-17

As per JERC MYT Regulations, 2014, the Hon'ble Commission shall undertake the True Up of licensee for FY 2016-17 based on the comparison of the actual performance of the past year with the approved estimates for such year.

In line with the provisions of JERC MYT Regulations, EDDD is filing its True Up for the year FY 2016-17. Information provided in the True Up for FY 2016-17 is based on the Annual Accounts and principles adopted by the Hon'ble Commission in its previous orders on Interest on Term Loan, Return on Equity, Interest on Working Capital and Depreciation. This actual performance has been compared with the approved parameters as per the order dated 6th April, 2016 and 29th May, 2017 for the FY 16-17.

Accordingly, revised Aggregate Revenue Requirement, revenue and gap for FY 16-17 are given in the following paragraphs of this chapter.

2.2 Energy Sales for FY 2016-17

The actual energy sale for FY 2016-17 has been shown below along with approved sales by Hon'ble Commission vide Tariff Order dated 6th April, 2016 and 29th May, 2017. The actual energy sales for FY 2016-17 are as under:

Table 1: Consumer category wise energy sales for FY 2016-17

Particulars	(MU)		
	FY 16-17 Approved (6th April, 2016)	FY 16-17 Approved (29th May, 2017)	FY 16-17 Actual
Domestic	99.49	91.99	97.89
LIG/ Kutir Jyoti	0.10	0.10	0.10
Commercial	47.69	54.34	55.37
Agriculture	2.53	2.63	2.81
LT Industry	166.19	167.69	179.85
HT/EHT Industry	1469.52	1438.40	1,407.81
Public Lighting	11.11	7.62	7.89
Public Water Works	3.83	2.81	3.22
Temp. Supply	0.00	0.00	2.17
Total Sales	1,800.46	1,765.58	1,757.11

It can be observed from the above that there is a slight variation in the actual energy sold as compared to the energy sales approved by the Commission vide the Tariff Order dated 29th May, 2017. The reasons attributable for the same are:

- The actual sales of the HT category for the FY 2016-17 was 1407.81 MUs as compared to 1438.40 MUs approved by the Hon'ble Commission in its Tariff Order dated 29th May, 2017.
- The actual sold to the Commercial category was 55.37 MUs as compared to 54.34 MUs approved by the Hon'ble Commission in its Tariff Order dated 29th May, 2017.
- The actual sold to the Domestic category was 97.89 MUs as compared to 91.99 MUs approved by the Hon'ble Commission in its Tariff Order dated 29th May, 2017.
- The actual sold to the Public Lighting category was 7.89 MUs as compared to 7.62 MUs approved by the Hon'ble Commission in its Tariff Order dated 29th May, 2017.
- Overall the actual sales has decreased by around 8.00 MUs in comparison to the sales approved by the Hon'ble Commission vide its Tariff Order dated 29th May, 2017.

The EDDD requests the Hon'ble Commission to approve the actual sales for FY 16-17.

2.3 Distribution Loss for FY 2016-17

EDDD is making all efforts to reduce the distribution losses in the UT of Daman & Diu. In FY 2016-17, the actual distribution losses were 8.48% as against the approved level of 8.50%.

In the Tariff Order dated 6th April, 2016 and 29th May, 2017 the Hon'ble Commission had approved the distribution losses at 8.50% for the FY 2016-17. However, now EDDD has computed the distribution loss based on the actual sales data for FY 16-17. Based on that the distribution loss for FY 16-17 has been worked out at 8.48%. The table below highlights the comparison of actual distribution losses of the EDDD against that approved by the Hon'ble Commission vide its Tariff Order dated 6th April, 2016 and 29th May, 2017.

Table 2: Distribution Loss

Particulars	(%)		
	FY 16-17 Approved (6th April, 2016)	FY 16-17 Approved (29th May, 2017)	FY 16-17 Actual
Distribution Loss	8.50%	8.50%	8.48%

The EDDD requests the Hon'ble Commission to approve the actual T&D losses for FY 16-17.

2.4 Energy Requirement and Energy Balance

Based on the actual energy sales and the transmission & distribution loss units, the actual energy requirement for FY 16-17 has been furnished below. The energy requirement had been met through various sources as described in the subsequent sections.

Table 3: Energy Balance for FY 2016-17

The net energy requirement for sale during FY 2016-17 was 2498.96 MUs.

2.5 Power Purchase Cost

EDDD sources power from Central Generating Stations like Korba, Vindychal, Kahalgaon, Kawas of National Thermal Power Corporation (NTPC) and Tarapur and Kakrapar atomic power stations of Nuclear Power Corporation of India Limited (NPCIL) etc. The actual power purchase for the FY 16-17 is provided in the table below and compared with the power purchase approved by the Hon'ble Commission.

Table 4: Power purchase cost for FY 2016-17

Particulars	MUs		Cost (Rs. Crore)	
	FY 16-17	FY 16-17	FY 16-17	FY 16-17
	Approved	Actual	Approved	Actual
Power Purchase	2,038.70	2,034.76	726.49	715.30

The power purchase depends on various parameters such as the energy sales, distribution loss, energy requirement and the energy availability. The variation in the power purchase cost from the Tariff Order is on account of variation in sales and variation in actual cost with respect to the base rate along with purchase of power from short-term sources to meet the shortfall during the year.

The Hon'ble Commission had approved the power purchase at Rs. 726.49 Crore in the Tariff Order dated 29th May, 2017. Now, the EDDD has claimed a power purchase cost of Rs. 715.30 Crore based on the Annual accounts for FY 16-17 and there is a decrease in the power purchase cost as compared to the power purchase cost approved by the Hon'ble Commission.

The EDDD also requests the JERC to allow the UI purchase during FY 16-17 without any penalty as the EDDD has already incurred that amount. Therefore, the EDDD has included that total UI amount paid in the total power purchase cost for FY 16-17.

The EDDD purchased 100.14 MU during FY16-17 through UI at the cost of Rs. 17.61 Crore to meet the energy shortfall during the year. Further, the EDDD procured 14.48 MUs of solar energy from its rooftop and ground mounted solar plants during the FY 2016-17 to meet its solar obligation. As there were no solar certificates available in the energy exchange therefore solar certificates could not be purchased to fulfill the target of solar energy.

The EDDD procured 24.81 MUS of non-solar energy from the Arunachal Pradesh Power Corporation Pvt. Ltd. and Himachal Pradesh State Electricity Board Ltd. to meet the non-solar obligation. The EDDD also procured 13334 non-solar certificates to meet the non-solar obligation.

The EDDD, therefore, requests the Hon'ble Commission to approve the actual power purchase cost for FY 16-17 without any deduction.

2.6 Operation and Maintenance Expenses

Operations and Maintenance (O&M) Expenses of the department consists of the following elements:

- Employee Expenses
- Repairs and Maintenance Costs
- Administrative and General Expenses

Employee expenses comprise of salaries, dearness allowance, bonus, terminal benefits in the form of pension & gratuity, leave encashment and staff welfare expenses.

Repairs and Maintenance Expenses go towards the day to day upkeep of the transmission and distribution network of the department and form an integral part of its effort towards reliable and quality power supply as also in the reduction of losses in the system.

Administration expenses mainly comprise of rents, telephone and other communication expenses, professional charges, conveyance and travelling allowances, other debits.

The Hon'ble Commission had approved the O&M cost at Rs. 28.16 Crore and Rs. 29.63 Crore vide Tariff Orders dated 6th April, 2016 and 29th May, 2017 respectively. During FY 16-17, EDDD incurred actual O&M expense of Rs. 40.16 Crore which was inclusive

of employee cost of Rs. 15.19 Crore, Repair & Maintenance Charges of Rs. 17.50 Crore and Administration & General Expenses of Rs. 6.75 Crore as shown in the table below:

Table 5: Operation & Maintenance Expenses for FY 2016-17

Particulars	(Rs. Crore.)		
	FY 16-17 Approved (6th April, 2016)	FY 16-17 Approved (29th May, 2017)	FY 16-17 Actual
Employee Cost	11.19	11.10	15.91
R&M	11.98	13.57	17.50
A&G	4.99	4.96	6.75
O&M Expenses	28.16	29.63	40.16

The O&M cost has increased due to the increase in the actual cost incurred by the EDDD during the FY 2016-17 as against the O&M cost approved by the Hon'ble Commission. The employee cost incurred by the EDDD during the FY 2016-17 was Rs. 15.91 Crore which is Rs. 4.81 Crores higher than the employee cost approved by the Hon'ble Commission. The employee cost increased due to the implementation of the 7th Pay Commission.

Further, the R&M cost has also increased by Rs. 3.93 Crores due to the cost incurred by the EDDD against installation of new energy meters throughout the territory of the UT of Daman and Diu. These energy meters have not been added to the Gross Fixed Assets of the EDDD and therefore the cost incurred against installation of the meters has been considered in the R&M expenses. The revised estimates submitted by the EDDD for FY 2016-17 were based on the half yearly actual cost incurred by the department. However, the O&M cost as submitted for the truing up purpose is based on the actual cost incurred by the EDDD during the FY 2016-17. The EDDD, therefore, requests the Hon'ble Commission to approve the O&M expenses for FY 16-17 as submitted in herewith.

2.7 Capital Expenditure & Capitalization

The actual capital expenditure incurred by EDDD during the FY 16-17 was Rs. 48.62 Crore, which is lower than that of approved by the Hon'ble Commission in its Tariff Orders dated 6th April, 2016 and 29th May, 2017 respectively. The capital expenditure incurred and actual capitalization made by the department for FY 16-17 against that approved by the Hon'ble Commission is as shown below:

Table 6: Capital expenditure and capitalization for FY 16-17

Particulars	(Rs. Crore.)		
	FY 16-17 Approved (6th April, 2016)	FY 16-17 Approved (29th May, 2017)	FY 16-17 Actual
Capital Expenditure	71.98	71.98	48.62
Capitalisation	54.70	54.70	65.52

The EDDD, therefore, requests the Hon'ble Commission to approve the capital expenditure and capitalization for FY 16-17.

2.8 Depreciation

The depreciation has been worked out after applying the Depreciation rates as per the JERC MYT Regulations, 2014. Accordingly, the depreciation so arrived and approved depreciation for FY 2016-17 is shown in the table below:

Table 7: Depreciation for FY 2016-17

The EDDD, requests the Hon'ble Commission to approve the actual depreciation for FY 16-17 without any deduction.

2.9 Interest and Finance Charges

For assessing interest on Loans in FY 16-17, EDDD has considered the opening balance of loans for FY 16-17 as approved by the Hon'ble Commission vide its Tariff Order dated 29th May, 2017 for the Review of the ARR for FY 16-17. The normative loan addition in FY 16-17 has been computed as 70% of the capitalization for FY 2016-17 which works out to Rs. 45.87 Crore. The capitalization for FY 16-17 was Rs. 65.52 Crore as per the audited annual accounts for FY 16-17.

As per the JERC (Multi Year Distribution Tariff) Regulations, 2014, the repayment of loan during the year has been considered equal to the depreciation for the FY 2016-17. Further the rate of interest has been considered as equal to the SBI PLR of 14.05%.

The following table depicts the total Interest & Financial charges for FY 16-17 computed by EDDD and compared the same with the approved Interest and Financial charges amount for the consideration of the Hon'ble Commission:

The Hon'ble Commission in Order dated 6th April, 2016 has approved a total Aggregate Revenue Requirement (ARR) of Rs. 990.47 Crore for FY 16-17. Further, the Commission has computed the revised ARR for FY 16-17 in the Order dated and 29th May, 2017 of Rs. 796.28 Crore. Based on the annual accounts for FY 16-17 and the actual expenses incurred by the EDDD, the revised ARR for FY 2016-17 has been arrived at Rs. 791.61 Crore.

This revised ARR is compared against the actual income highlighted in the previous section under various heads. Revenue realized from the existing tariff during the FY 2016-17 was Rs. 818.98 Crore. Accordingly, total revenue surplus of EDDD for FY 16-17 is computed at Rs. 27.36 Crore as depicted in the Table below:

Chapter 3: Review for the FY 2017-18

The review of aggregate revenue requirement for FY 17-18 is based on quantum of energy sales, energy loss as well as various cost elements like power purchase cost, O&M expenses, interest cost and depreciation etc. This has been done based on actual data for six months and revised estimates for the remaining six months of FY 17-18. EDDD analysis in respect of items given below is discussed in the following paras:

- a. Category wise Energy Sales & Revenues at existing tariffs;
- b. T&D Losses;
- c. Energy Requirement;
- d. Determination of Aggregate Revenue Requirement (ARR) by forecasting the following costs, other income & returns:
 - i. Power Purchase Cost
 - ii. Employee Cost
 - iii. Repairs & Maintenance Cost
 - iv. Admin & General Cost
 - v. Capital Investment Plan
 - vi. Interest Cost
 - vii. Interest on Working Capital
 - viii. Depreciation
 - ix. Provision for bad & doubtful debts
 - x. Return on Equity
 - xi. Income Tax
 - xii. Non-Tariff Income
- e. Determination of Gap between Revenue & Costs, Additional Revenue through the proposed Tariff Revision and the arrangements to cover the revenue gap.

3.1 Energy Sales

Based on the actual retail sales to various consumers for the first six months and revised estimates for the remaining six months, EDDD has estimated the total retail energy sold for FY 17-18 as shown in the Table below:

Table 16: Category wise sales for FY 17-18 (Revised Estimate)

(MU)

Temp. Supply	0.00	0	3.22
Total Sales	1,924.47	1,843.84	2,039.27

As can be seen, EDDD's overall energy sales are significantly dependent upon HT/EHT Industries to the extent of around 81%. The revised estimates of energy sales for the FY 2017-18 is 2039.27 MUs as against 1843.84 MUs approved by the Hon'ble Commission in the Tariff Order dated 29th May, 2017. EDDD has shown an increase in sales for the FY 2017-18 as against the sales approved by the Hon'ble Commission due to the fact that in the month of November 2017, consumers availing open access have reduced the quantum of open access by 31.50 MW out of the 48.50 MW being availed by them till November, 2017. Therefore, proportionate sales against 31.50 MW have been added to the total sales for the period December, 2017 to March, 2018.

3.2 Distribution loss for FY 17-18

EDDD has considered the distribution losses of 8.40% for FY 17-18, the same as approved by the Hon'ble Commission in its last Tariff Order.

3.4 Energy Availability and power purchase cost

EDDD has no generating stations of its own and relies on the firm and infirm allocation of power from Central Generating Stations like Korba, Vindhyachal, Kahalgaon, Kawas, Sipat, Tarapur, Kakrapar, Sholapur etc. to meet its energy requirement.

The EDDD for the purpose of estimation of the power availability during FY 17-18 has considered the following sources of power:

- NTPC Western Region Generating Stations

- NTPC Eastern Region Generating Stations
- NSPCL (NTPC-SAIL Power Company Ltd)
- Nuclear Power Corporation of India Limited
- Ratnagiri Gas Power Plant (RGPPL)
- Renewable energy sources - Solar and Non-Solar
- Other market sources

The Petitioner has allocation from Western as well as Eastern region from coal, gas and nuclear power stations. However, for meeting the supply-demand gap during the peak hours, the Petitioner has relied on energy exchange and over-drawal from the Grid (UI).

For projecting of the energy availability for FY 17-18, six months actual power purchase has been considered. For projection of remaining six months of power purchase for FY 17-18, firm and infirm allocation from various generating stations has been considered as per the allocation specified in the notification no's. WRPC/Comm-I/6/Alloc/2017/15183 dated 17.10.2017 of Western Regional Power Committee. Detailed methodology for projecting the power availability to the Petitioner from various sources is summarized below.

The EDDD has received income tax refund to the tune of Rs. 47.85 Crores from the NTPC in the month of June, 2017. The same has been deducted from the ARR.

For FY 17-18, till September, 2017 the EDDD has procured 9.02 MU of solar energy from its ground mounted and rooftop solar plants. For the remaining six months the EDDD will further procure 9.02 MU of solar power from its own generation and will purchase a further 32.94 MUs as solar certificates to meet its solar obligation till FY 2017-18.

During the first six months of FY 2017-18, the EDDD purchased 26.67 MUs through non-solar certificates. To meet its non-solar obligation for the FY 2017-18, the EDDD has planned to purchase 58.98 MUs through non-solar certificates during the remaining six months of FY 2017-18.

Depreciation is charged on the basis of straight-line method, on the Gross Fixed Assets in use at the beginning of the year and addition in assets during the financial year. The depreciation is based on the original cost of the Gross Fixed Assets.

Based on the CERC norms, EDDD has applied the following depreciation rates as specified in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations, 2014.

Table 25: Depreciation rate specified by CERC

Asset Category	Depreciation Rate %

Assets capitalized during the FY 2017-18 have been considered based on normative debt-equity ratio of 70:30 as per the as per the JERC (Multi Year Distribution Tariff) Regulations, 2014.

Interest rate of 14.05% has been considered for computation of interest cost for long-term loans which is similar to the prevailing SBI Prime Lending Rate. The normative interest on long-term/capital loans against approved by the Commission in the Tariff Order dated 6th April, 2016 and 29th May, 2017 as against the revised estimates is shown in the Table below:

3.9.2 Interest on Working Capital Borrowings

EDDD has computed the Interest on Working Capital for the Control Period based on normative basis as per the JERC (Multi Year Distribution Tariff) Regulations, 2014.

The working capital requirement for the Control Period has been computed considering the following parameters:

- Receivables of two months of billing
- Less power purchase cost of one month
- Less consumer security deposit but excluding Bank Guarantee/Fixed Deposit
- Inventory for two months based on annual requirement for previous year

A rate of interest of 9.30% has been considered on the working capital requirement, being the SBI Prime Lending Rate as on 1st April of the year. This is in line with the JERC (Multi Year Distribution Tariff) Regulations, 2014 which states that "The rate of interest on working capital shall be equal to the base rate for the State Bank of India on the 1st April of the relevant financial year."

The rate of interest of 9.30% has been considered for FY 17-18 on the working capital requirement as approved by the Hon'ble Commission in its last Tariff Order.

The normative interest on working capital for FY 17-18 considering the above methodology is summarized in the Table below:

3.10 Return on Equity

As per the JERC (Multi Year Distribution Tariff) Regulations, 2014, EDDD is entitled for a Return on Equity (RoE).

Return on equity has been computed on the actual paid up equity. The rate of return has been taken as 16% as per the MYT Regulations. Accordingly, the 16% post tax return on equity computed for FY 2017-18 is given in the Table below:

3.14 Revenue from Existing Tariff

Revenue from sale of power for FY 17-18 is determined based on the energy sales estimated and category wise tariff prevalent in the UT of Daman and Diu.

Revenue from sale of power at existing tariff is estimated to be Rs. 848.27 Crore in FY 17-18, as shown in the following Table. The estimated revenue for FY 17-18 is based on the six month actual revenue at the exiting tariff. The revenue for remaining six months of FY 17-18 has been computed based on the retail tariff notified by the Commission in the Tariff Order for FY 17-18 dated 29th May, 2017. As directed by the Hon'ble Commission in its Tariff Order dated 29th May, 2017, the fuel purchase adjustment surcharge approved by the Hon'ble Commission is not being levied to the consumers of the EDDD. The FPPCA is being adjusted against the surplus approved by the Hon'ble Commission at the end of FY 2017-18. Accordingly, FPPCA to the tune of Rs. 28.87 Crores for the 1st quarter of FY 2017-18 has not been levied to the consumers and is being adjusted against the approved surplus. The FPPCA computed for the remaining three quarters of the FY 2017-18 shall be submitted to the Hon'ble Commission.

The Table below summarizes the revenue from sale of power at existing tariff for FY 17-18:

The same is due to the fact that the EDDD has converted the existing street light of sodium vapor lamps on all major district roads of Daman and Diu to LED street lights. Further, the existing street light of florescent tube light of municipality area of UT of Daman and Diu has also been converted to LED street lights.
3. The projected load for the FY 2017-18 and FY 2018-19 for all the categories has been given in the table below:

4.3 Energy Sales Growth

1. EDDD has forecasted the energy sales taking into account the past trends in the number of consumers, connected load and energy sales customer category-wise. Actual data available for the period from FY 2011-12 to FY 2016-17 has been considered to arrive at the Compound Annual Growth Rate (CAGR) for each of the

customer categories. As the data available for FY 2017-18 pertains only to the first 6 months of the year, the figures for FY 2017-18 were not considered for arriving at the growth rates. However, the figures available for 6 months of FY 2017-18 have been annualized, in line with the past trends to arrive at sales estimates for FY 2017-18. The figures for FY 2017-18 have been further used as the base for forecasting the values for the FY 2018-19.

2. Table 37 below presents the category-wise energy sales for the past 6 years.

3. The EDDD is of the view that the factors affecting the actual consumption of electricity are numerous and often beyond the control of the utility including factors such as Government Policy, economic climate, weather conditions and force majeure events like natural disasters, etc. EDDD, therefore for projecting the category-wise consumption for the FY 2018-19 has considered the past growth trends in each of the consumer category including growth trend in number of consumers and connected load.
4. The sales for the FY 2017-18 has been projected by considering the actual sales for the first six months of FY 2017-18 and estimating the sales of the remaining six months on the basis of the four year CAGR for the different consumer categories. EDDD would like to highlight that for estimating energy sales to various consumer categories for FY 17-18, previous years CAGRs have been considered as well as the new connections that are likely to be released by the EDDD in the remaining period of FY 17-18.
5. EDDD has shown an increase in sales for the FY 2018-19 as against the sales approved by the Hon'ble Commission due to the fact that in the month of

November 2017, consumers availing open access have reduced the quantum of open access by 31.50 MW out of the 48.50 MW being availed by them till November, 2017. Therefore, proportionate sales against 31.50 MW have been added to the total sales for the period December, 2017 to March, 2018 and the FY 2018-19. It has been assumed that the quantum of open access for the FY 2018-19 shall remain at the same level as during the period December, 2017 to March, 2018.

6. The table given below summarizes the projections of category wise increase in energy sales during the FY 2018-19. As can be observed, the overall energy sales in UT of Daman & Diu are significantly dependent upon HT industrial consumption.
7. EDDD submits to the Hon'ble Commission to approve the energy sales forecasted herein.

4.4 T&D Loss Reduction

1. The EDDD would like to submit that the system improvement works executed every year under the planned schemes as well as increase in energy sales quantum to the HT consumers have resulted in the reduction of T & D losses in its distribution area.
2. EDDD has achieved T&D loss level of 8.48% for the FY 2016-17. Reduction of T&D below 10% involves significant amount of capital expenditure and it is EDDD's endeavor to bring the T&D loss level further down in the subsequent years. Further, the Hon'ble Commission had set a T&D loss level target of 8.30% for the FY 2018-19 in the Tariff Order dated 6th April, 2016. The EDDD proposes

[Handwritten signature]

to reduce the T&D losses to 8.30% for FY 18-19. The loss reduction trajectory for the Control Period is as given in the table below:

4.6 Energy Availability

1. Daman & Diu being a Union Territory with no generating stations of its own, mainly relies on the firm and infirm allocations of power from Central Generating Stations like Korba, Vindhyachal, Kahalgaon, Kawas, Tarapur and Kakrapar atomic power stations of NPCIL etc. to meet its energy requirement.
2. The EDDD for the purpose of estimation of the power availability during FY 18-19 has considered the following sources of power:
 - NTPC Western Region Generating Stations;
 - NTPC Eastern Region Generating Stations;
 - NSPCL (NTPC-SAIL Power Company Ltd);
 - Nuclear Power Corporation of India Limited;
 - Private sector power generating entities;
 - Renewable energy sources (solar and non-solar); and
 - Other Arrangements, in case of un-scheduled deficit of power
3. The Petitioner has allocation from Western as well as Eastern region power generating stations including coal, gas and nuclear power stations. However, for meeting the supply-demand gap during the peak hours, the Petitioner has relied on the short term arrangement of power.
4. For projecting the energy availability for FY 17-18, actual power purchase for the first six months of FY 17-18 has been considered. For projection of energy availability for the FY 2018-19, firm and infirm allocation from various generating stations has been considered. Detailed methodology for projecting the power availability to the Petitioner from various sources is summarized below.

4.6.1 Power Purchase

1. Daman & Diu has firm and infirm allocations in Central Sector Generating Stations of NTPC, Nuclear Power Corporation of India Ltd (NPCIL), NTPC Sail Power Company Ltd (NSPCL) and Ratnagiri Gas and Power Private Limited (RGPPL).
2. Since first six months of FY 17-18 have already elapsed, the actual power purchase data for the same is available with the department. Therefore, the power availability for remaining six months i.e. October 2017 to March 2018 has been estimated based on the revised allocation specified in the notification no's. WRPC/Comml-I/6/Alloc/2017/15183 dated 17.10.2017 of Western Regional Power Committee. The energy allocation from various generating stations is summarized in table below:

3. Actual power purchase in first six months of FY 17-18 and power allocation of 70 MW from NTPC-SAIL Bhilai power plant has been considered while estimating the power availability from this plant during FY 17-18.
4. The EDDD did not receive any power from Ratnagiri Gas Power Plant during the first six months of FY 17-18. Hence, it is expected that EDDD will not be getting power from Ratnagiri for the rest of the FY 2017-18 and therefore power purchase from the plant has not been considered for the remaining six months of FY 2017-18.
5. The consumers availing open access have reduced the quantum of open access by 31.50 MW out of the 48.50 MW being availed by them. It is further anticipated that these consumers will not opt for open access during the FY 2018-19. Hence, the EDDD shall be procuring energy from the energy exchange to meet the increased demand for the corresponding increase in sales due to reduction in open access.
6. For projecting the power availability for FY 2018-19, EDDD has considered average allocation of firm and infirm power from the western region generation stations (NTPC and NPCIL) of Western Regional Power Committee. For projecting the power purchase from eastern region NTPC generating stations, an allocation of 1.30 MW from KhSTPP has been taken into account.
7. Additionally, EDDD has 70 MW allocations from NSPCL Bhilai power stations. Energy availability from NSPCL Bhilai power stations for FY 18-19 has been considered by taking 70 MW allocation from the plant.
8. Power purchase quantum from the NTPC stations of the current year and FY 2018-19 has been calculated based on the installed capacity of each plant and by applying the average of previous four years (FY 14 to FY 17) PLF to calculate the plant-wise gross generation. For NSPCL, an average PLF of 90% has been considered.
9. For gas based generating stations i.e. Kawas (KGPP) and Gandhar (GGPP) weighted average PLF of FY 12-13, FY 2013-14 and FY 2014-15 have been taken into account.

10. Auxiliary consumption of 9% and 3% has been considered for estimating the gross generation from coal and gas based generating stations respectively.
11. Merit Order Dispatch: Further, the NTPC stations have been subjected to merit order dispatch and accordingly the power purchase quantum and variable cost has been projected. However the fixed charges have been approved for full allocation.
12. As per the RPO obligations the EDDD shall have to purchase 85.63 MUs of solar power and 128.44 MUs of non-solar power during the FY 2018-19. Own generation of solar has been projected at 18.04 MUs for the FY 2018-19. Rest of the solar obligation shall be met by purchasing Renewable Energy Certificates. To meet the non-solar RPO the EDDD shall try to procure non-solar power through the exchange and purchase renewable energy certificates.
13. For computing the power availability at the periphery, 3.66% weighted average external transmission losses have been applied on the gross power purchase for FY 2017-18 and FY 2018-19.
14. Table 42 below depicts the station wise power purchase for FY 2017-18 and FY 2018-19.

4.6.3 Power Purchase Cost

1. The cost of purchase from the central generating stations for FY 18-19 is estimated based on the following assumptions:

- Fixed cost for the FY 2018-19 has been projected considering a 5% escalation over the estimated fixed cost for various stations for FY 16-17.
- Variable cost for each NTPC generating stations for the FY 2018-19 has been projected at the same rate as received during the first six months of FY 2017-18.
- The EDDD has projected other charges (tax, incentives, etc) for the FY 2017-18 at similar level as estimated for full year of FY 16-17.
- For nuclear plants i.e. KAPP and TAPP single part tariff, the actual average variable cost per unit has been considered at the same rate as received during the first six months of FY 2017-18 for projecting the power purchase cost for the FY 2018-19.

- For power purchase from renewable energy sources, for the FY 2018-19, the EDDD has appointed BHEL as EPC and O&M contractor for 1 MW solar plant at Daman and 3 MW solar plant at Diu. Also, EDDD has appointed Ujjas energy limited as EPC and O&M contractor for 6MW solar plant at Diu. For the purchase of solar and non-solar power, the rate of Rs. 1.00/unit and Rs. 1.5/unit has been considered for the FY 2018-19.
- The average power purchase cost for procurement of power from the energy exchange has been considered at Rs. 2.65/unit.

2. The Total Power Purchase cost from various sources for FY 18-19 is summarized in the Table below:

4.6.4 Transmission and Other Charges

Transmission charges payable to PGCIL are based on the total capacity allocation in the transmission network. EDDD has a mix of firm and infirm capacity allocations from various Central Generating Stations which is revised by the Ministry of Power at regular intervals. Therefore, considering the changing capacity allocation, EDDD has estimated the transmission charges for FY 17-18 based on, an escalation of 5% over the actual transmission charges of FY 16-17. Further, EDDD has taken into account the additional capacity share in the new stations while estimating the Inter-State transmission charges for ensuing year.

For projecting the PGCIL transmission charges for the FY 2018-19, an escalation of 5% over the estimated FY 17-18 transmission charges has been considered in view of the increase in transmission charges. Further, EDDD has taken into account the additional capacity share in the new stations while estimating the Inter-State transmission charges for ensuing year.

4.7 Operation & Maintenance Costs

- Operation and Maintenance expenses comprise of the following heads:
 - Employees Expenses** which includes the basic pay, dearness pay, dearness allowances, house rent allowances, and other allowances paid to the staff;
 - Repair and Maintenance (R&M) Expenses**, which include all expenditure incurred on the maintenance and upkeep of transmission and distribution assets; and
 - Administrative and General Expenses**, which include all expenditure incurred in operating a business such as telephone charges, consultancy and regulatory fee etc.
- The methodology adopted by EDDD for projecting the values of each component of the O&M expense for FY 2018-19 has been explained in the following section.

4.7.1 Employee Expense

- The Employee expense estimated by the Petitioner comprise of all costs related to employees like basic salary, dearness allowances, medical expenses, leave travel allowances, honorarium, etc. But the Petitioner does not maintain cost related to leave salary contribution, pension and terminal benefits of the employee in the employee cost. Therefore, the Petitioner will claim these expenses relating to the employee cost at an appropriate time when the respective cost items become payable.
- Based on the various expense head related to employee booked during six months of FY 17-18, EDDD has estimated the total employee cost for full year of FY 17-18 as Rs. 16.06 Crore. Salary expenses for the FY 2018-19 is estimated based on the

[Handwritten signature]

average increase in the Wholesale Price Index (WPI) for immediately preceding three years. The average WPI for the last three years is 0.04%.

3. As per the MYT Regulations, 2014, the employees' expenses have been calculated as per the following formulae:

$$EMP_n = (EMP_b * WPI \text{ inflation}) + \text{Provision}$$

where:

EMP_n: Employee expense for the year n

EMP_b; including yearly increments of employees, bonus, promotion, VRS.

Employee expense as per the norm

WPI inflation: is the average increase in the Wholesale Price Index (WPI) for immediately preceding three years

Provision: Provision for expenses as necessitated by the licensee due to expansion of the consumer base, yearly increments of Employees, and any expected one-time expenses as such as recovery/adjustment of terminal benefits, implications of pay commission, arrears and Interim Relief.

4. The average growth in the WPI for the last three years is 0.04%. Total employee cost of EDDD for the FY 2018-19 is as given in the table below:

Employee Expenses	FY 2018-19	FY 2018-19
	Approved	Projected
Employee Expenses	12.99	16.21

5. EDDD submits to the Hon'ble Commission to approve the employee costs as projected by the Petitioner.

4.7.2 Repairs & Maintenance Expense

- Repairs and maintenance expense comprise of expenses incurred by the Petitioner with regard to maintenance and upkeep of the transmission and distribution system. Adequate R&M activities help in reduction of transmission and distribution losses and breakdowns in the system.
- The actual R&M expense for FY 2016-17 is Rs. 17.50 Crore.

3. As per the JERC Tariff Regulations the R&M expenses shall be calculated as percentage (as per the norm defined) of Opening Gross Fixed Assets for the year governed by following formula:

$$R\&M_n = K_b * GFA_n * \text{Inflation Index}$$

where:

R&M_n: Repairs & Maintenance expense for nth year

GFA_n: Opening Gross Fixed Assets for nth year

K_b: Percentage point as per the norm

GFA : Gross Fixed Assets at the beginning of the Financial Year

Inflation Index is CPI : WPI :: 60 : 40

CPI is Consumer Price Index issued by Govt. of India & these indices are for immediately preceding three years

WPI is whole sale price Index issued by Govt. of India & these indices are for immediately preceding three years

4. For projecting the R&M expense for the Control Period, the EDDD has considered the inflation index as 4.70% (CPI: WPI :: 60 : 40). Total repair & maintenance cost of EDDD for FY 18-19 is summarized in the table below:

Table 49: Repairs & Maintenance Expense

Repair & Maintenance Expense	(Rs. Crore)	
	FY 2018-19 Approved	FY 2018-19 Projected
R&M Expenses	16.62	20.80

5. EDDD requests the Commission to approve the R&M expense without any disallowances as the same is necessary for proper maintenance and strengthening of the system and quality of supply in the region in order to ensure consumer satisfaction. Further, Commission should considered the fact that price of most of the basic commodities like iron, copper, zinc and cement used in the repairs and maintenance has increased tremendously over the last 5 years.

4.7.3 Administration & General Expense

1. Administrative and General (A&G) expenses comprise of various expenses as given below:

- Rent

[Handwritten signature]

- Rates and taxes
 - Travel and conveyance expenses
 - Consultancy and regulatory fees
 - Energy auditing fee and consumer indexing
 - Insurance and other administration expenses
2. The actual A&G expense for FY 16-17 is Rs. 6.75 Crore.
3. For projecting the A&G expenses for the Control Period the following formula has been used as given in the MYT Regulations:

$$A\&G_n = (A\&G_b * WPI \text{ inflation}) + \text{Provision}$$

where:

A&G_n: A&G expense for the year n A&G_b:

A&G expense as per the norm

WPI inflation: is the average increase in the Wholesale Price Index (WPI) for immediately preceding three years

Provision: Cost for initiatives or other one-time expenses as proposed by the Distribution Licensee and validated by the Commission.

The A&G expenses projected for the FY 2018-19 have been given in the table below:

Table 50: A&G Expense

(Rs. Crore)		
A&G Expense	FY 2018-19	FY 2018-19
	Approved	Projected
A&G Expenses	5.80	6.88

4. The Regulatory & Consultancy expenses for the Control Period has been projected as per the existing agreements, contracts with the consultants and the best estimates for the future regulatory and consultancy works.
5. In line with the above, the Hon'ble Commission is requested to approve the A&G costs without any disallowance.

3.7.4 Total Operation and Maintenance Expense

Based on the employee cost, R&M and A&G expense projected above, the total O&M expenditure for FY 18-19 is summarized in table below.

The EDDD requests the Hon'ble Commission to approve the O&M expense as projected above.

4.8 Capital Expenditure Plan

- As has been discussed above, the (EDDD) is engaged in the procurement, transmission and distribution of electricity to the various consumer categories in the Union Territory of Daman and Diu. Apart from the upcoming solar plants, it does not have its own power generation station and completely rely on the Central Sector Generating Stations (CSGS) in Western Region to meet its energy demand.
- The scheme wise capital expenditure plan for the FY 2018-19 is given in the table below:

Table 52: Total O&M Expense

- A summary of the capital expenditure and capitalization for FY 18-19 vis-à-vis approved by the Commission is summarized in Table below:

Table 53: Capital Expenditure & Capitalization for FY 18-19

Particulars	(Rs. Crore)	
	FY 18-19 Approved (6th April, 2016)	FY 18-19 Projected
Capital Expenditure	117.31	77.23
Capitalisation	119.11	58.73

- The EDDD requests the Hon'ble Commission to approve the capital expenditure and capitalization as projected above.

5.9 Gross Fixed Assets

- EDDD had Rs. 468.63 Crore of Opening Gross Fixed Assets (GFA) in FY 16-17. Assets amounting to Rs. 65.52 Crore have been added to the GFA during the FY 2016-17.
- Assets amounting to Rs. 47.73 Crore have been estimated to be added in the GFA during FY 17-18.
- Similarly, based on the capital expenditure plan as detailed above, Rs. 58.73 Crore, is proposed to be capitalized during the FY 2018-19.

4. A summary of the Opening and Closing GFA and capitalization has been summarized in table below:

Table 54: Opening and Closing GFA for the FY 2018-19

Particulars	(Rs. Crore)		
	Opening GFA	Additions during the Year	Closing GFA
FY 2018-19(Approved)	560.99	119.11	680.10
FY 2018-19(Projected)	581.89	58.73	640.62

5. The EDDD requests the Hon'ble Commission to approve the GFA as projected above.

5.10 Depreciation

1. Depreciation is charged on the basis of straight-line method, on the GFA in use at the beginning of the year and addition in assets during the financial year. The depreciation is based on the original cost of the Gross Fixed Assets.
2. Based on the CERC norms, EDDD has applied the following depreciation rates as specified in the Central Electricity Regulatory Commission (Terms & Conditions of Tariff) Regulations, 2014.

Asset Category	Depreciation Rate %
Plant & Machinery	5.28%
Buildings	3.34%
Vehicles	9.50%
Furniture & Fixtures	6.33%
Computers & Others	6.33%
Land	0.00%

3. Depreciation for the FY 18-19 is determined by applying aforesaid category-wise assets depreciation rates on the opening balance of Gross Fixed assets and average of the addition during the FY 2018-19. The EDDD would like to submit to the Hon'ble Commission that it has computed the depreciation based on the closing value of GFA for FY 2016-17 as given in the fixed asset register and the estimated capitalization for FY 17-18 and FY 2018-19.

(Handwritten signature)

4. Therefore the EDDD requests the Hon'ble Commission to approve the depreciation as given in the table below:

Table 55: Depreciation

Average GFA	620.55	611.25
Depreciation during the year	31.65	30.64

5. The EDDD requests the Hon'ble Commission to approve the depreciation as projected above.

5.11 Interest & Finance Costs

5.11.1 Interest on Long-term / Capital Loans

1. The entire capital expenditure of EDDD since its inception has been funded by the Central Government through budgetary support each year. Therefore, the department does not have any loan liabilities.
2. However, EDDD is now migrating from a Government owned utility to a commercial utility under the Electricity Act, 2003, it has come under the direction of the Joint Electricity Regulatory Commission. It has been assumed that EDDD would work as a separate commercial utility and therefore would be utilizing the debt facilities in the coming years.
3. Assets capitalized during the FY 2018-19 have been considered based on normative debt-equity ratio of 70:30 as per the JERC (Multi Year Distribution Tariff) Regulations, 2014.
4. Interest rate of 14.05% has been considered for computation of interest cost for long-term loans which is similar to the prevailing SBI Prime Lending Rate. Details of the loan amounts and interest cost computed for FY 2018-19 is summarized in Table below:

Table 56: Total Interest on Long-term Loans

Particulars	(Rs. Crore)	
	FY 18-19 Approved (6th April, 2016)	FY 18-19 Projected

Closing Loan	200.89	170.02
Interest Cost on Avg. Loans	24.59	23.15

5. The EDDD requests the Hon'ble Commission to approve the interest on long-term capital loans as given in the table above.

5.11.2 Interest on Working Capital Borrowings

- 1 EDDD has computed the Interest on Working Capital for the FY 2018-19 based on normative basis as per the JERC (Multi Year Distribution Tariff) Regulations, 2014.
- 2 The working capital requirement for the FY 2018-19 has been computed considering the following parameters:
 - a. Receivables of two months of billing
 - b. Less power purchase cost of one month
 - c. Less consumer security deposit but excluding Bank Guarantee/Fixed Deposit
 - d. Inventory for two months based on annual requirement for previous year
- 3 A rate of interest of 9.30% has been considered on the working capital requirement, being the SBI Prime Lending Rate as on 1st April of the year. This is in line with the JERC (Multi Year Distribution Tariff) Regulations, 2014 which states that "The rate of interest on working capital shall be equal to the base rate for the State Bank of India on the 1st April of the relevant financial year."
- 4 The normative interest on working capital for the FY 2018-19 considering the above methodology is summarized in the Table below:

Table 57: Interest on Working Capital for the FY 2018-19

(Rs. Crore)

Particulars	FY 18-19	FY 18-19

- 5 The EDDD requests the Hon'ble Commission to approve the interest on working capital as given above.

5.12 Return on Capital Employed

- As per the JERC (Multi Year Distribution Tariff) Regulations, 2014, EDDD is entitled for a Return on Equity (RoE).
- Return on equity has been computed on the actual paid up equity. The rate of return has been taken as 16% as per the MYT Regulations. Accordingly, the 16% post tax return on equity is given in the Table below:

Table 58: Proposed Return on Equity

- Non-tariff income includes meter rent/service line rentals, recovery for theft of power/malpractices, miscellaneous charges from consumers. Other income includes Interest on Staff loans & advances, Delayed payment charges from consumers, Interest on advances to suppliers/contractors, and Miscellaneous receipts.
- For projecting the non-tariff income for the FY 2018-19, an increase of 5% p.a. has been considered over the estimated non-tariff income for FY 17-18. Details of the year wise non-tariff income is provided in table below:

5.16 Revenue at Existing Tariff

1. Revenue from sale of power for FY 18-19 is determined based on the energy sales estimated in Table 40 and category wise tariff prevalent in the UT of Daman & Diu.
2. EDDD has computed the revenue for the FY 2018-19 based on the tariff notified by the Hon'ble Commission in the Tariff Order for the FY 2017-18 dated 29th May, 2017.
3. The table below summarizes the revenue from sale of power at existing tariff for FY 2017-18:

5.17 Coverage of Revenue Gap

1. Revenue from sale of power with-in the UT (category-wise) is determined in Table 62.
2. Table 63 summarizes the ARR for EDDD for FY 2016-17, FY 2017-18 and FY 2018-19 along with the revenue and the resulting revenue (gap)/surplus. The cumulative surplus for the three years is Rs. 215.65 Crores as given in the table below.

3. It is evident from Table 63 that there is a cumulative surplus of Rs. 215.65 Crore for the three years. The estimated gap has been computed by deducting the ARR from Revenue at Existing Tariff.
4. As there is a cumulative surplus at the end of FY 2018-19, the EDDD does not propose any tariff hike for the FY 2018-19. It is further proposed that the Hon'ble Commission may please allow the EDDD to adjust the positive FPPCA against the cumulative surplus for the FY 2018-19 as well. It is prayed to the Hon'ble Commission that considering the above submissions the proposal of EDDD for keeping the tariff unchanged for the FY 2018-19 may kindly be approved.

3.2 Voltage wise Wheeling Charges

The EDDD has considered the voltage wise losses for FY 2018-19 as considered by the Hon'ble Commission in its Tariff Order for the FY 2017-18.

The total loss for FY 2018-19 has been considered as 8.30%. The balancing loss has been considered as the loss at the LT level.

To arrive at the network usage, the input energy at each level has been arrived and shown in the table below.

Table 67: Determination of input energy for network usage percentage

Particulars	UoM	FY 2018-19
Sales at 11 kV and above (HT/EHT)	MU	1,965.96

3.3 Cross Subsidy Surcharge

The cross-subsidy surcharge is based on the following formula as given in the Tariff Policy dated 28.01.2016:

$$S = T - [C / (1 - L / 100) + D + R]$$

Where,

S is the surcharge

T is the tariff payable by the relevant category of consumers, including reflecting the Renewable Purchase Obligation;

C is the per unit weighted average cost of power purchase by the Licensee, including meeting the Renewable Purchase Obligation

D is the aggregate of transmission, distribution and wheeling charge applicable to the relevant voltage level

L is the aggregate of transmission, distribution and commercial losses, expressed as a percentage applicable to the relevant voltage level

R is the per unit cost of carrying regulatory assets.

The computation of each item is as below.

Tariff Schedule

General Terms and Conditions:

1. The Tariffs are exclusive of electricity duty, taxes and other charges levied by the Government or other competent authority from time to time which are payable by the consumers in addition to the charges levied as per the Tariffs.
2. Unless otherwise agreed to, these Tariffs for power supply are applicable for supply at one point only.
3. Supply to consumers having contracted load between 100 KVA to 4000 KVA (including licensee common feeders and express feeders/dedicated feeders) shall generally be at 11 KV and for more than 4000 KVA up to 25000 KVA at 66 KV. For the consumer who requires load more than 25000 KVA load, the supply voltage shall be at 220 KV level. Further, to avoid the overloading of the existing 11 KV feeder the consumers with contracted load of 2000 KVA and above shall have to erect a dedicated feeder.
4. If energy supplied for a specific purpose under a particular Tariff is used for a different purpose, not contemplated in the contract for supply and/or for which higher Tariff is applicable, it will be deemed as unauthorized use of electricity and shall be dealt with for assessment under the provisions of Section 126 of the Electricity Act, 2003 & Supply Code Regulation notified by JERC.
5. If connected load of a domestic category is found to be at variance with the sanctioned/contracted load as a result of replacement of appliances such as lamps, fans, fuses, switches, low voltage domestic appliances, fittings, it shall not fall under Section 126 and Section 135 of the EA 2003.
6. If the consumer fails to pay the energy bill presented to him by the due date, the Department shall have the right to disconnect the supply after giving 15 days' notice as per provision of the Act and the Supply Code Regulation.
7. Fixed charges, wherever applicable, will be charged on pro-rata basis from the date of release of connection. Fixed charges, wherever applicable, will be double as and when bi-monthly billing is carried out. Similarly, slabs of energy consumption will also be considered accordingly in case of bi-monthly billing.

8. The billing in case of HT/EHT shall be on the maximum demand recorded during the month or 85% of contracted demand, whichever is higher. If in any month, the recorded maximum demand of the consumer exceeds its contracted demand, that portion of the demand in excess of the contracted demand shall be billed at double the normal rate. Similarly, energy consumption corresponding to excess demand shall also be billed at double the normal rate. The definition of the maximum demand would be in accordance with the provisions of the Supply Code Regulation. If such over-drawal is more than 20% of the contract demand then the connections shall be disconnected immediately.

Explanation: Assuming the contract demand as 100 KVA, maximum demand at 120 KVA and total energy consumption as 12000 kWh, then the consumption corresponding to the contract demand will be 10000 kWh ($12000 \times 100 / 120$) and consumption corresponding to the excess demand will be 2000 kWh. This excess demand of 20 KVA and excess consumption of 2000 kWh will be billed at twice the respective normal rate. Such connections drawing more than 120 KVA, shall be disconnected immediately.

9. Unless specifically stated to the contrary, the figures of energy charges relates to paisa per unit (kWh) charge for energy consumed during the month..
10. Delayed payment surcharge shall be applicable to all categories of consumers. Delayed payment surcharge of 2% per month or part thereof shall be levied on all arrears of bills. Such surcharge shall be rounded off to the nearest multiple of one rupee. Amount less than 50 paisa shall be ignored and amount of 50 paisa or more shall be rounded off to next rupee. In case of permanent disconnection, delayed payment surcharge shall be charged only up to the month of permanent disconnection.
11. **Advance Payment Rebate:** If payment is made in advance well before commencement of consumption period for which bill is prepared, a rebate @ 1% per month shall be given on the amount (excluding security deposit) which remains with the licensee at the end of the month. Such rebate, after adjusting any amount payable to the licensee, shall be credited to the account of the consumer.
12. **Prompt Payment Rebate:** If payment is made at least 7 days in advance of the due date of payment, a rebate for prompt payment @ 0.25 % of the bill amount

shall be given. Those consumers having arrears shall not be entitled for such rebate.

13. TOD Tariff: For the purpose of TOD Tariff, the peak/off-peak/normal hours and charges for the corresponding period shall be as under:

Time of use	Demand Charges	Energy Charges
Normal period (6:00 a.m. to 6:00 p.m)	Normal Rate	Normal rate of energy Charges
Evening peak load period (6:00 p.m to 10.00 p.m)	Normal Rate	130% of normal rate of energy charges
Off-peak load period (10:00 p.m to 6:00 a.m)	Normal Rate	85% of normal rate of energy charges

14. The adjustment on account of Fuel and Power Purchase Cost variation shall be calculated in accordance with FPPCA formula separately notified by the Commission under the Regulation. Such charges shall be recovered/refunded in accordance with the terms and conditions specified in the FPPCA formula.
